

POLIVAC C25 ROTARY POLISHER

Operations Manual & Trouble Shooting Guide

How to Operate a Polishing/Scrubbing Machine PV25, C25 AND C27

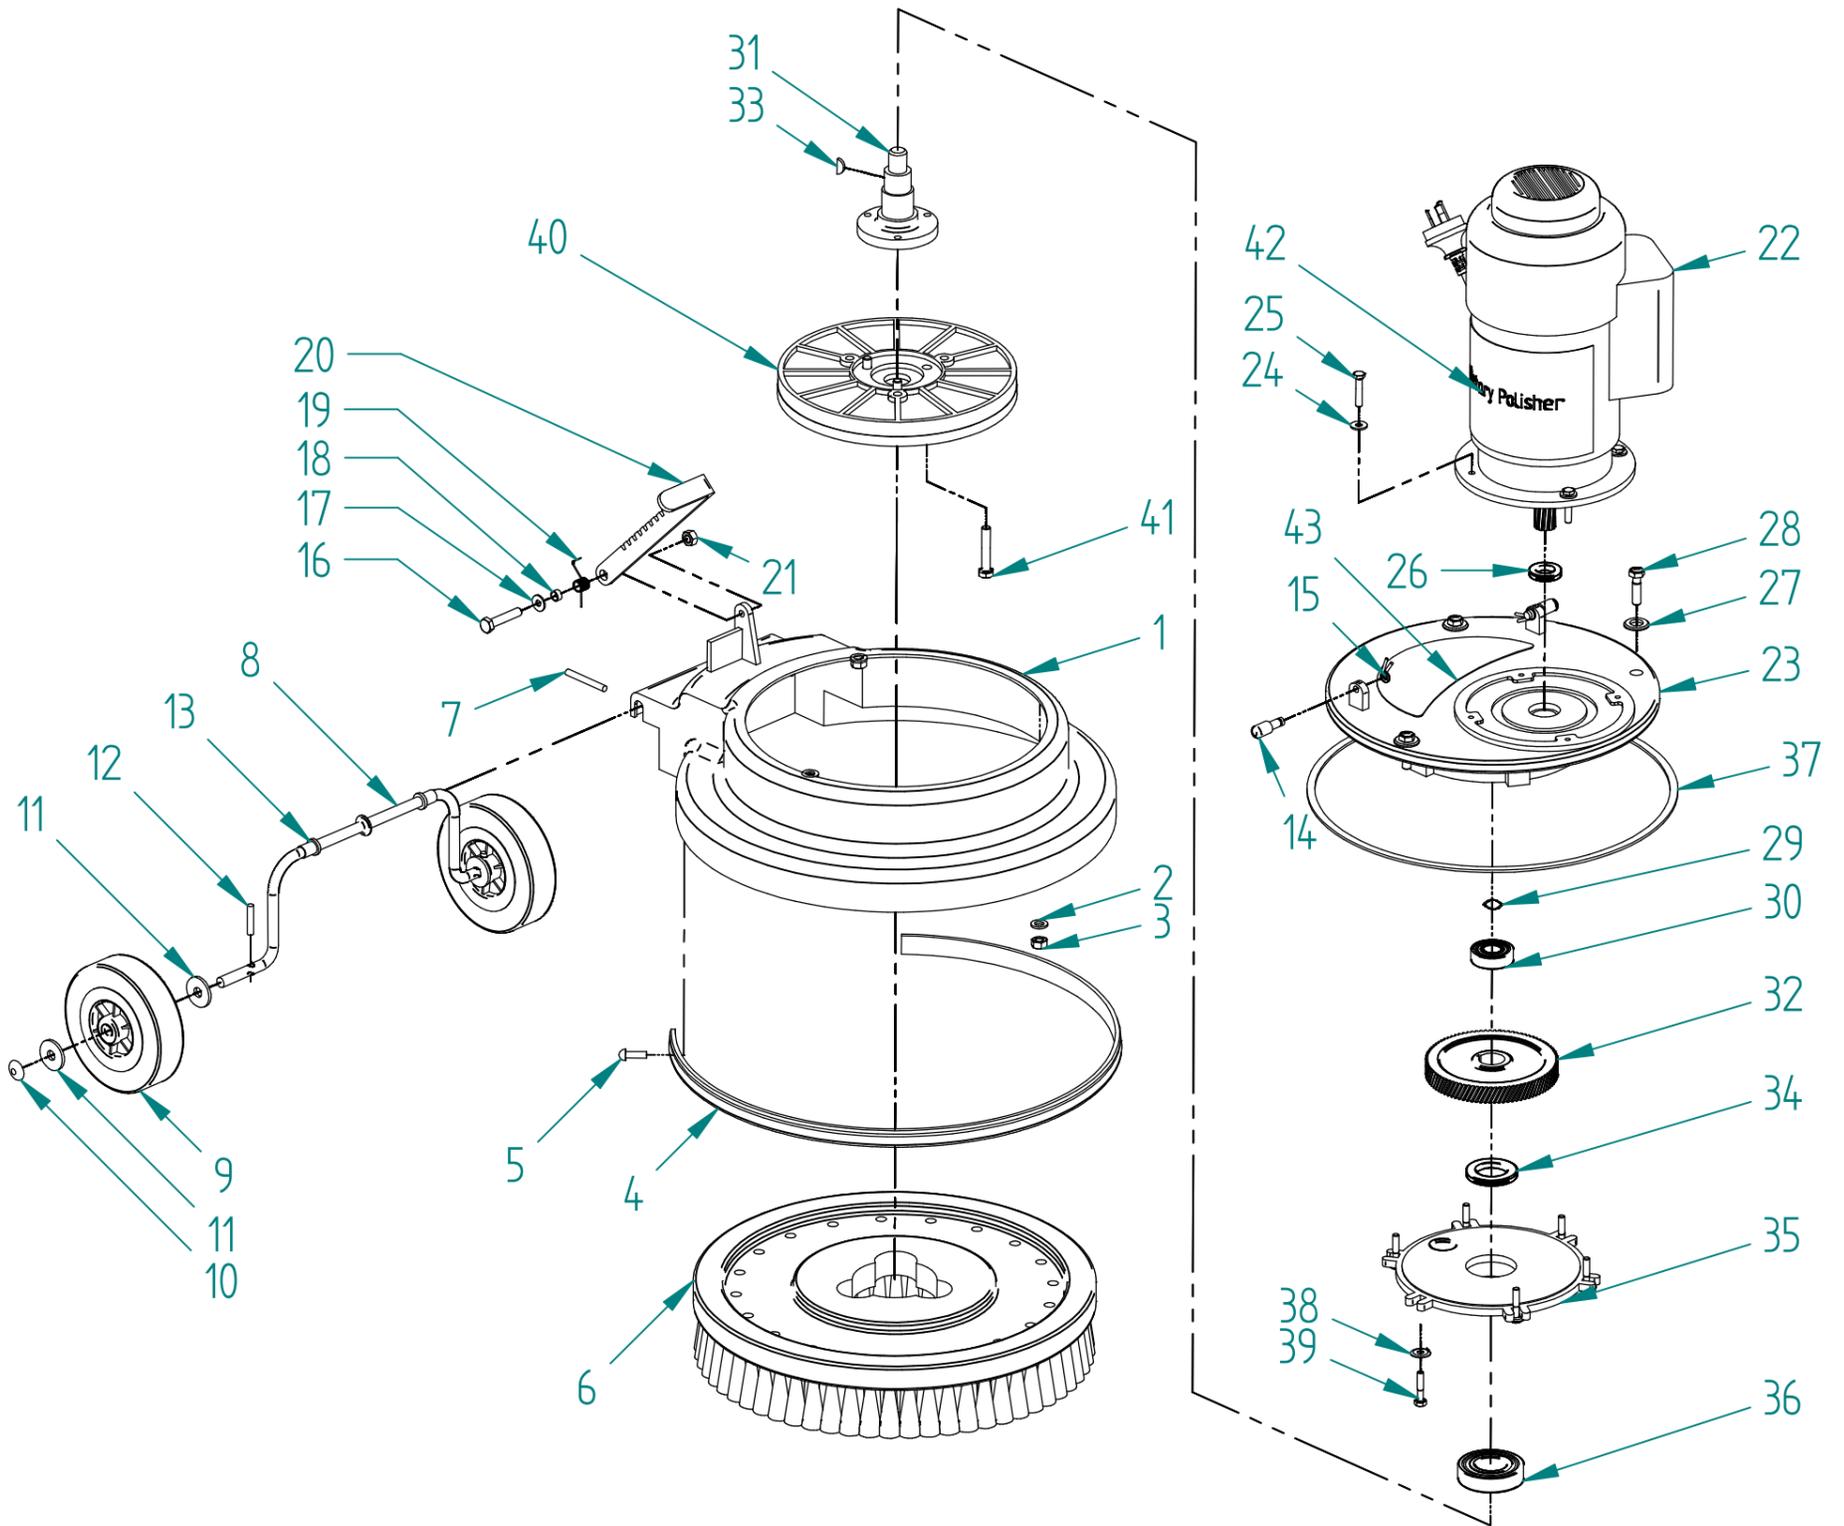

Please find the following correct operating procedure for the operation of the Polivac range of polishers and scrubbers, PV25, C25 and C27.

1. Plug in power cable. Power supply will be visible via the red light on the top of the handle.
2. Tilt the machine back by using the handle.
3. a) Place the Brush or Pad Holder over the 3 Leaf clover connection and turn it clockwise to lock the Brush/Pad Holder into position.

b) If the connection has a brass 3 puck clutch fitted, locate the Brush/Pad Holder on the metal drive clutch, by slotting grooves together, then turn Brush/Pad Holder sharply to the left.
4. Once the Brush/Pad Holder is fitted, stand the machine back up.
5. Slightly lift the handle up and manoeuvre the wheels backwards and up out of the way (the wheels must be off the floor when polishing).
6. The handle height must be adjusted to suit individual operators body proportions. Adjust the ergonomic handle to the correct height by placing your foot or hand on the ratchet lever, then positioning the handle. The correct height of the handle is around the groin region.
7. When the handle is set at the correct height, the arms should grip the handle in a comfortable, but loose manner (if your arms are bent at the elbows this is an indication that you are applying too much effort to control the machine) Re-adjust the handle.
8. To start the machine, first you must depress the red safety button that is next to the hand trigger, then grasp either of the red triggers, and the motor will engage the brush. Do not force the trigger without first releasing the safety button as this will damage the safety release in the trigger mechanism. Once the machine is on, the safety button can be released.
9. To facilitate the correct swinging motion of the machine, lift the handle slightly forward to get the polisher to move to the right and lower the handle to get the machine to move to the left. This requires minimal effort. So, if you are fighting the machine for control you have the handle set at the wrong height or your pad or cloverleaf locking mechanism is damaged.
10. **(PV25 Only)** To use the vacuum system whilst polishing, switch the vac motor to the on position. The vacuum will be activated upon starting the machine.
11. When stripping floors using the PV25, ensure vacuum motor is switched OFF.
12. Ensure that brushware is removed from the machine after use and before storing machine away.

Rotary Polisher - C25

Drive & Base Assembly

Rotary Polisher - C25

Drive & Base Assembly - Part List

No	Code	Description
1	VPA424	Skirt-Powder Coated
2	AAG237	Washer 1/4" x 3/4" Zinc Bright
3	AAF140	Nut Nyloc 1/4" UNC
4	PPR002	Continental Trim
5	SLB035	Rivet ASL 5-6
6	PC40B1	Brush Assembly
7	VPV218	Retaining Pin-Axle
8	VPV170	Axle-Wheel
9	VPA571	Wheel-Rubber Tyre
10	GCA292	Ratchet Cap 12 mm
11	AAG470	Washer 1/2" x 1" Zinc Bright

WARRANTY POLICY

1. When a warranty repair is requested, the purchaser must first contact any of Polivac's authorized Service Centres with proof of purchase and details of the alleged defect. In most instances, the request for warranty brought to the attention of our Service Centres or Agents is handled in a prompt routine manner with no question as to its validity. However, some requests for warranty are not justified. In these cases, product owners will be made aware that the premature failure of their product was the result of a cause not covered by Warranty.
2. The Polivac warranty covers only DEFECTIVE MATERIAL and/or DEFECTIVE WORKMANSHIP. It does not cover labour.
3. Polivac products are warranted for twelve (12) months from date of purchase by the original purchaser against faulty workmanship or material. The warranty covers only the replacement, repair or adjustment of any part which in the opinion of Polivac fails because of a fault in materials or workmanship:
 - a) drive motors and gearbox assemblies on electrical products carry a two (2) years warranty
 - b) bodies of carpet extraction products and vacuum cleaners carry a three (3) years conditional warranty.
 - c) battery warranty of twelve (12) months is as provided by the manufacturer. Terms available on request.
4. Where the product has been rented out by a Hire or similar company, the warranty period is reduced to three (3) months.
5. This warranty does not cover service calls, travelling time or consumable parts - e.g. drive belts, chains, flexible skirts or hoses, dust bags, mains leads, brushes, buffers, buffer strips, sanding discs, light bulbs, nozzles, filters, pressure pumps, piston seals, diaphragms, squeegees and like items.
6. In the case of proprietary components used by the manufacturer in the product, such as engines, electrical motors, chargers and the like, Polivac will pass on any warranty provided by the manufacture of such items.
7. Accidental damage, abuse, misuse or neglect of the product is not covered by warranty.
8. Fair wear and tear and where the product has been used other than for the purpose for which it was designed is not covered by warranty.
9. Use of non-approved chemicals and detergents in the product will void the warranty.
10. Products that have been modified are not covered by warranty.
11. Products that have not been serviced at their recommended intervals by an authorised Polivac Service Centre or Agent are not covered by warranty
12. Damage to, or failure of, the product which has resulted from low or high voltage, the use of an incorrectly sized extension lead, or a coiled electrical extension lead is not covered by warranty.
13. Repairs carried out on the product by any person other than an authorized Polivac repairer will void the warranty.
14. All freight charges to and from the manufacturer, agent or service centre will be the responsibility of the distributor.
15. A charge for traveling time and labour will be applicable for on-site warranty service.
16. Polivac reserves the right to replace defective parts of the product with parts or components of similar quality, grade and composition where an identical part or component is not available. Goods presented for repair may be replaced by refurbished goods of the same type rather than being repaired.

POLIVAC WARRANTY IS SUBJECT TO THE LAWS AND REGULATIONS OF THE INDIVIDUAL STATES AND COMMONWEALTH TERRITORIES OF AUSTRALIA. THIS WARRANTY IS NOT TRANSFERRABLE.
